**A Philosophy Of Music Education**  
Philosophy of Music Education. As an educator, my role is to provide a safe and welcoming environment for students to learn and grow. It is important for learning to take place in such an environment so that students are not only free to be themselves, but free to make mistakes. This way, mistakes happen in a safe, forgiving environment where students can learn from them before they have to learn those lessons in the real world.

**Philosophy of Music education - Kansas State University**  
In the 1990s and to the present, professional philosophical work in music education grew dramatically, leading to a higher degree of sophistication and the emergence of more varied alternatives than ever before in its history. Confusion about basic values began to be felt, with concomitant loss of security and of a broadly shared vision.

**Bennett Reimer - Wikipedia**  
Philosophy of music is the study of "fundamental questions about the nature of music and our experience of it". The philosophical study of music has many connections with philosophical questions in metaphysics and aesthetics. Some basic questions in the philosophy of music are:

**Philosophy of music - Wikipedia**  
Above all, I have maintained and recommitted myself to the belief that the experience of music itself—how musical sounds influence human lives—is the cornerstone of a viable philosophy of music education and of an effective and valid program of music learning.

**Philosophy of Music Education: Advancing the Vision ...**  
Philosophy of Music Education Music is a basic part of everyday life. What makes music unique is its ability to create an emotional response in a person. A music education program should develop the aesthetic experience of every student to its highest potential. Aesthetics is the study of the relationship of art to the human senses.
