its technology partner IBM, ran two proof of concept projects to test the system. One project was about tracing mangos sold in Walmart's US stores and the other aimed to trace pork sold in its China stores. The Hyperledger Fabric blockchain-based food traceability system built for the two products worked.

Walmart thought that blockchain technology might be a good fit for the decentralized food supply ecosystem. To test this hypothesis, the company created a food traceability system based on Hyperledger Fabric. Walmart, together with its technology partner IBM, ran two proof of concept projects to test the system.

success story of Wal-Mart, the world's largest retailer, in Mexico. Wal-Mart started its international operations in 1991 with its entry into Mexico. The company entered in Mexico through a joint venture with Grupo Cifra SA de CV (Cifra), a leading Mexican retailer. Wal-Mart later consolidated its position in Mexico by acquiring a major stake in Cifra.
