What a super fun ABC concept book! Arial photos of US cities reveal letters of the alphabet among their topographies. As a nerd who can spend too much time aimlessly meandering through Google Earth and street views and as a children's librarian who loves concept books, this is right up my alley. I'll admit, finding some of the letters was a challenge, but thankfully

The modern English alphabet is a Latin alphabet consisting of 26 letters, each having an upper- and lower-case form. It originated around the 7th century from the Latin script. Since then, letters have been added or removed to give the current Modern English alphabet of 26 letters (this eventually becoming the ISO basic Latin alphabet).

The history of alphabetic writing goes back to the consonantal writing system used for Semitic languages in the Levant in the 2nd millennium BCE. Most or nearly all alphabetic scripts used throughout the world today ultimately go back to this Semitic proto-alphabet. Its first origins can be traced back to a Proto-Sinaitic script developed in Ancient Egypt to represent the language of Semitic ...
