The Process Study Sheet is used to define and record the time for work elements in a process. Before timing, observe and list the work elements required to produce one element. Then observe and define the actual time required for each individual work element. Timing Tips Collect real times at the process. Position yourself so you can see the operator's hand motions. Time each work element ...

Standard Work Process Study Sheet | Lean Enterprise Institute

Businesses in all industries and services, including healthcare and governments, are using lean principles as the way they think and do. Many organizations choose not to use the word lean, but to label what they do as their own system, such as the Toyota Production System or the Danaher Business System.
